

ARVAL ONE FLEET

International fleet management from a single source

Global service

As an Arval customer with international presence in other countries, we offer you a global service through an offer perfectly tailored to your needs: **Arval One Fleet** is the full-service solution that allows you to manage your fleet across all countries.

Your advantages

Arval as an **international fleet management company** supports you in the coordination of your fleet in **29 countries** by:

Worldwide experience in fleet leasing and management

Easy implementation of the fleet in other countries

The combination of global strategies and local knowledge

Unified international support

One service package for all countries

An international agreement with country-specific regulations

- ✓ Standardized and quickly finalized international agreements
- ✓ Straightforward addition solutions for the respective international locations

An international reporting tool

- ✓ Time savings through comprehensive fleet analysis
- ✓ Fleet optimization and control

Our Best-in-Class Catalog

- ✓ With our Best-in-Class catalog, we offer you a selection of attractive fleet vehicles based on a TCO (total cost of ownership) approach. This gives you an optimal price overview of the different models in the respective country.

With **Arval One Fleet**, you benefit from **comprehensive services** in all countries and **optional services** designed for local needs.

Included services:

Maintenance and tire service, Arval Assistance claims management, CART - our alternative to comprehensive insurance, and My Fleet Status - the reporting tool.

Optional services :

Fuel card management, traffic ticket processing and Arval Outsourcing Solutions, where we take care of the control and management of your fleet. You can also find the complete international product portfolio at www.arval.com
